

# Assessment Form Bachelor Thesis Project

Student	Allas Rajuvali		
Student Number	4429605		
Department and section(s)	Applied Earth Science		
Name + section supervisor 1	Philip Vardon, Geo-Engineering		
Name + section supervisor 2	Denis Voskov, Petroleum Engineering		
Thesis title	Effect of Mineral Sealing on Geothermal Wells		
Total mark (to be rounded off to whole or half)	7.5		
Date	21 <sup>st</sup> September 2018		
Signature supervisor 1		Time spent supervisor 1* * max. 20 hrs. for both supervisors	10
Signature supervisor 2		Time spent supervisor 2* * max. 20 hrs. for both supervisors	10

# Beoordelingsformulier BSc-eindwerk (2e deel)

Component	Weight	Remarks supervisor 1		Remarks supervisor 2
		Mark supervisor 1	Mark supervisor 2	
Work attitude (initiative, independence)	0,1	8		Good attitude, independent, organized.
Technical/content-related depth	0,3	7		Some concepts were more challenging, and logical steps were not always followed without providing questions.
Result achieved (product) and/or answering of the question	0,3	7,5		Report was prepared well, questions were not answered as well.
Written presentation (final report)	0,2	8		
Oral presentation	0,1	8,5		Very good.
Turnit-In plagiarism check				

Weights can be adjusted proportionally.  
Per component, the average is taken of the marks of the supervisors, then weighed and calculated to the final mark.
